Summary

Results-driven **Front-End Developer** with a **Bachelor of Engineering in Communications & Computer Engineering (Graduated in July 2025)**. Expert in **React.js**, **JavaScript (ES6+)**, **HTML5**, **CSS3**, **Tailwind CSS**, **Redux Toolkit**, and **Bootstrap**. Proven ability to build **responsive, high-performance web applications** with seamless **RESTful API integration** and **scalable state management**. Demonstrated success in developing **e-commerce** platforms, **admin dashboards**, **and modern landing pages**, consistently optimizing **SEO**, **performance**, and **accessibility**. Adept at version control with **Git/GitHub**, deploying with **Vercel**, and writing **clean, maintainable code**. Passionate about **UI/UX design**, delivering **user-friendly and engaging digital experiences**.

Skills

Technical Skills

- **Front-End:** (HTML5 , CSS3 , JavaScript (ES6+) , TypeSacript , React.js , Redux Toolkit , TailwindCSS , Bootstrap , jQuery)

- **Tools & Deployment:** (Git , GitHub , Vercel)

- **Programming Foundations:-** (C , C++ , Dart , OOP , DataStructure)

Soft Skills
- Problem Solving
- Time Management
- Team Collaboration
- Continuous Learning
- Adaptability

Professional Experience

Front-End Developer (Graduation Project)   10/2024 – 07/2025
Higher Institute of Engineering and Technology   Tanta, Egypt
- Developed a fully responsive user interface using HTML, CSS, JavaScript, and Tailwind CSS.
- Optimized performance across different devices and screen sizes to ensure smooth user experience.
- Architected a responsive video navigation menu with 10 categories and 3 subcategories each, adapting automatically to API data; accelerated content updates by 40% for content management team.

Course Trainee OOP & Flutter Basics   07/2024 – 08/2024
Tech Academy   Tanta, Egypt
- Learned the basics of Dart, object-oriented programming, and an introduction to mobile app development using Flutter.

Education

Bachelor of Engineering Communications Engineering & Computer Engineering   Graduated: July 2025
Higher Institute of Engineering and Technology   Tanta, Egypt
- Focused on computer engineering and front-end development, with practical projects using JavaScript and React.js

Projects

Front-End Developer (Personal Project)
G-Store E-commerce Web Site
E-commerce Website – Built with **React** and **TailwindCSS**. Implemented **dynamic** product pages, **filtering**, and a fully functional shopping cart. Integrated with an **API** to fetch products, ensuring real-time updates. Achieved high performance and accessibility scores: **SEO 91%**, **Best Practices** 96, **Accessibility** 92%, **Performance** 96%.
- **Live Demo**: https://ahmed2020026.github.io/e-commerce/

Front-End Developer (Personal Project)
G-Store Dashboard | React.js, Tailwind CSS, Redux Toolkit, RESTful API
Developed a responsive admin dashboard managing users, products, sales, orders, and reviews with full CRUD operations. Integrated **RESTful APIs** and **Redux Toolkit** for state management. Optimized UI/UX achieving **Performance**: 90%, **Accessibility**: 96%, **Best Practices**: 100%, and **SEO**: 83%. Created with **React.js** and **TailwindCSS**, deployed on **Vercel** with **Git/GitHub** version control.
- **Live Demo**: http://g-store-dashboard.vercel.app

Front-End Developer (Personal Project)
Estate Project
Created a responsive real estate landing page with **React.js** and **TailwindCSS**, featuring property listings, an about section, and a contact form. **Optimized UI/UX** achieving **Performance**: 98%, **Accessibility**: 94%, **Best Practices**: 100%, and **SEO**: 91%.
- **Live Demo**: https://ahmed2020026.github.io/Estate_project/

Front-End Developer (Personal Project)
Raya Shop E-commerce Website Clone
Redesigned a front-end version of the RAYA store using **HTML**, **CSS**, and **JavaScript** to simulate a basic e-commerce layout and user experience.
- **Live Demo**: https://ahmed2020026.github.io/raya_site/

Front-End Developer (Personal Project)
Wagatoha Website Collection Showcase
Designed a **responsive website** inspired by **Wagatoha** that displays a collection of useful sites for different purposes using **HTML**, **CSS**, and **JavaScript**.
- **Live Demo**: https://ahmed2020026.github.io/waga/

Front-End Developer (Personal Project)
Bein Sport Sports News & Matches Website Clone
Refactored front-end clone of the **Bein Sport** website utilizing **HTML**, **CSS**, **Bootstrap**, and **JavaScript**, improving overall site **performance** speed by 10%.
- **Live Demo**: https://ahmed2020026.github.io/Bein_Sport/
